

T-Mobile wants to place a cell phone tower on Briarlake Elementary School's playground

DeKalb County School System has already said yes.
Parents and neighbors say NO.
Please help our voices be heard.

Why should you care about a cell tower at Briarlake Elementary?

- **LOSS OF VALUABLE RESOURCES:** Construction of a 60x60x150' cell tower would occupy land that is intended for our children's academic growth and instruction.
- **THE DIMISHED VALUE OF OUR SCHOOL:** Placing a cell phone tower on the Briarlake property would compromise the value of the school, the area properties, and the tax value garnered from current and future residents. We are already losing families; imagine the fiscal impact of a 150-foot eyesore in our community.
- **LACK OF TRANSPARENCY:** If there was nothing to hide why did DCSS go about it this way? Why is DCSS involved in cell phone coverage?
- **THE SAFETY OF OUR CHILDREN:** During construction, maintenance, and operation, guaranteeing our children's safety from potential predators or simply thoughtless individuals is not possible. Also, there is absolutely NO evidence that continuous exposure to EMFs is not harmful to our children.
